People

Over the last month we have had some new additions to our team. Welcome to Tim Gondek from OSSA, Stephanie Mills and Stefane Gri from Imperial Oil, and Grace Lane. Grace has joined our Shell team as a senior business analyst and will play a key role in supporting ICCS engagement, delivery, and benefits measurement and tracking.

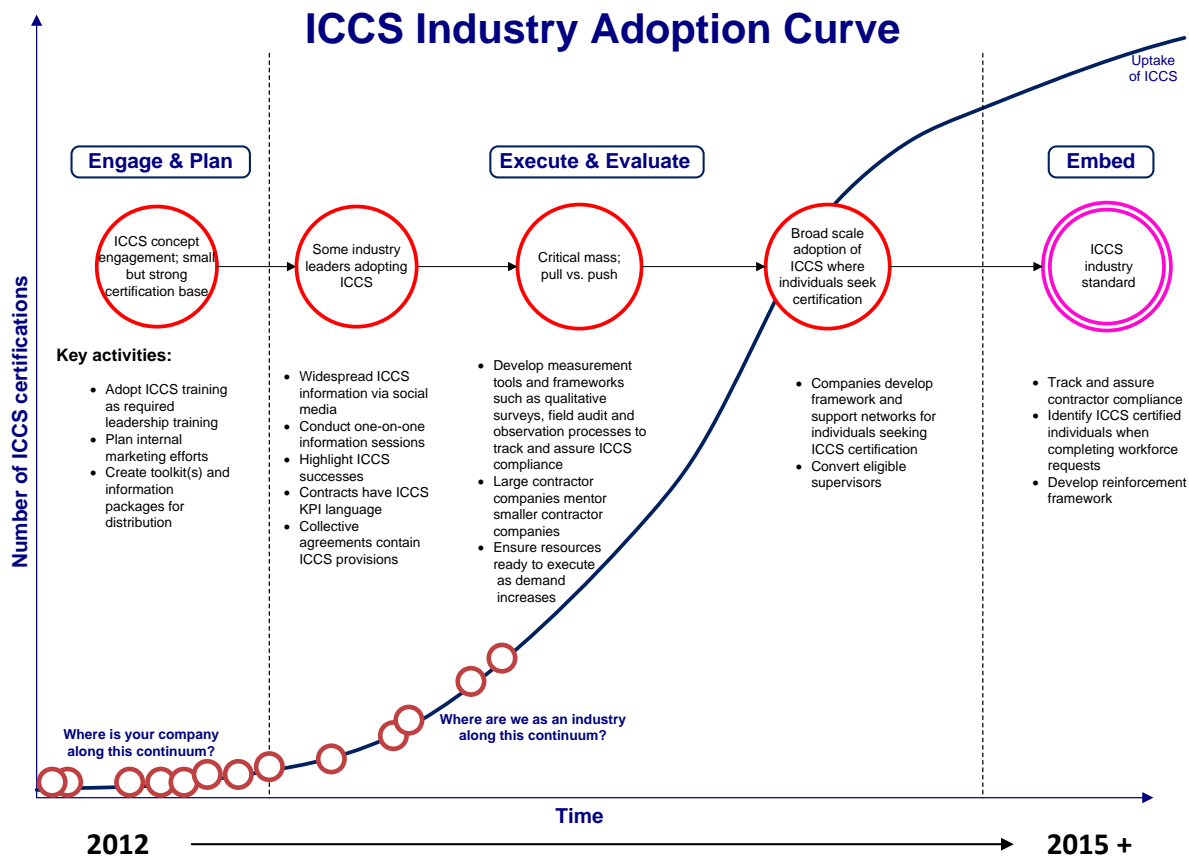

Progress

ICCS certifications awarded each year have been steadily increasing. The graph below depicts accelerating growth in ICCS certifications over the past 5 and ½ years. The rate of growth in the certifications increased from 10% to 17% in 2012. In Q1 2013, we are showing a jump in annualized growth rate to 33%.

One year later - Successes and Lessons Learned

Our team formed a year ago just in time for the COAA Best Practices Conference where we were able to talk about our newly formed team and our journey ahead. Since then we were able to create a Terms of Reference for how we work together and make decisions as a team, create our project charter, an early Road Map, and our Readiness Plans. We will continue our conversation at the COAA Best Practices conference again this year and we hope to see many of you there. In the short term, I wanted to give you a sneak preview of some of the points we will be speaking to at the conference.

Quote of the month “Collaboration is the Competitive Advantage.”

Thanks to everyone who is supporting the adoption of ICCS as an industry standard.

Regards,

Sheree Boyer
